## DETECTOMAT COMPANY PROFILE

**Professional system solutions**  
for fire alarm systems and voice alarms

# EVERYTHING FROM A SINGLE SOURCE

## "MADE IN GERMANY"

### Effective logistics

Optimised infrastructure and the latest processes ensure the best possible delivery performance and fast availability of our products, supported by our supply chain management.

### High-end development

We combine expert knowledge with reliable technology and many years of experience. We have a decentralised development team of more than 130 specialists, who are based in Germany and around the world.

### Quality

We continually optimise our international production chain, which enables us to provide high product quality and flexibly adjust our production capacity.

# DEF NETWORK

## STRATEGY FOR SUCCESS

Working together as a team **for the best performance.**

Detectomat GmbH was established in 1977 and is one of the leading providers in the field of fire detection technology.

As a medium-sized company and part of the DEF Network, one of the largest independent manufacturers of fire protection system technology in Europe, we offer products and services that are built on our long time experience and our high level quality standards.

Our product portfolio consists of individual components and ranges up to complex system solutions for fire detection technology and VA/PA voice alarms.

### Sales

Getting things right from the start. We are your personal contact for the planning and project design stage, right through to commissioning.

### Service at its best

This is a personal priority for us and we take the time to listen to your questions and requests. Our service team is well trained and our service partners talk your language.

### In-person and online seminars

Under the heading of 'Detectomat Training', we offer an extensive range of in-person and online seminars for training/further education and certification.
